

Touching Life:

A LASTING IMPRESSION

While camping with our church, I was rushed to the Page Memorial Hospital ER with serious stomach cramps.

I am not sure if this is the treatment you give all of your patients, but WOW, I felt like the President of the United States! Every member of the staff was so incredibly nice, understanding, patient (I am the biggest 46-year old baby there is), and made me feel so comfortable. I haven't stopped talking about your facility yet!

I told a co-worker if I ever had to go the hospital again, regardless of where I was, I'd drive to Page Memorial in Luray. I can't say enough about all of you and only wish you could set the standards for all hospitals on 'bed-side manner'.
