

Mammography Clinical Rotations – Updated 4/1/2022

The radiography program sponsored by Winchester Medical Center has revised its policy, effective April 1, 2022, regarding the placement of students in clinical mammography rotations to observe and/or perform breast imaging.

Under the revised policy, students may request the opportunity to participate in clinical mammography rotations. The program will make every effort to place students in a clinical mammography rotation if requested; however, the program is not in a position to override clinical setting policies that restrict clinical experiences in mammography to students.

Students are advised that placement in a mammography rotation is not guaranteed and is at the discretion of a clinical setting. The change in the program's policy regarding student clinical rotations in mammography is based on the sound rationale presented in a position statement on student clinical mammography rotations adopted by the Board of Directors of the Joint Review Committee on Education in Radiologic Technology (JRCERT).
